PROFILE

Visual designer specialising in content creation with generative AI (Midjourney, VEO 3), built on a technical foundation in 3D modelling, texturing and animation (Houdini, Maya, Cinema 4D, ZBrush). I combine the precision of a traditional 3D/VFX pipeline with the speed of AI tools to produce high-impact visual content for marketing and advertising. Proactive, quick to learn new technologies and experienced working in multidisciplinary teams.

EXPERIENCE

AI Creative · Fever
